

Ananda, *An Apology for the Vishad – Yoga (Gita)*, Bombay: Ramakrishna Math, 1989, pp. 53.

This small book-let is the outcome of Ananda's research and reflection of Gita. There are a lot of interpretations and commentaries on Gita. Here we do find an intellectual approach to the first chapter of Gita. In this book the author has drawn upon the entire range of Western and Eastern philosophical thought to project his point of view.
